

We have been successfully collaborating with the **European Pharmaceutical Students' Association (EPSA)** ^[1] on various initiatives and encourage you to explore all the different options we provide for you as a student. Together, we develop three main projects and activities for you:

EAHP-EPSA Internship Platform ^[2]

The perfect opportunity to gain international experience by having an internship in a hospital from another country. In the **database** ^[3] you can find hospital pharmacy internships available around Europe, take a look at all the opportunities awaiting around the corner! Find out how to apply as a **student/young professional** ^[4] or how **your hospital** ^[5] can get involved in the platform. Read also interesting **testimonies** ^[6] from previous participants.

EAHP-EPSA Student Science Award ^[7]

The EAHP-EPSA Student Science Award was created in 2011, this project aims to recognise innovative and high-quality student research in the field of hospital pharmacy. The winner of this award receives a recognition at the closing ceremony of the EAHP Congress. You can consult **the past winners** ^[8] and their **abstracts** ^[9] in our website.

Via the **Student Facebook Page** ^[10] you can stay up to date on hospital pharmacy news relevant to students and network with your colleagues over the web.

For all the latest updates "like" **EAHP's Student Page on Facebook**
