

# PATIENT SATISFACTION AND KNOWLEDGE AFTER SWITCHING FROM EVIPLERA® TO ODEFSEY®

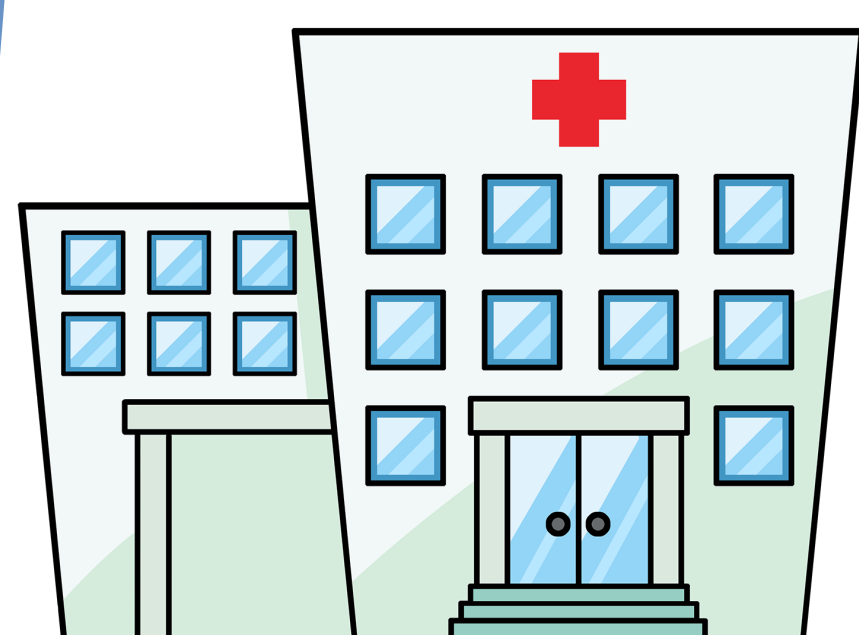

Vélez-Díaz-Pallarés M<sup>1</sup>, Gramage T<sup>1</sup>, Rodríguez MA<sup>1</sup>, Vicente N<sup>1</sup>, Montero B<sup>1</sup>, Moreno A<sup>2</sup>, Vivancos MJ<sup>2</sup>, Santander Z<sup>1</sup>, Salgado M<sup>1</sup>, Bermejo Vicedo T<sup>1</sup>.

<sup>1</sup>Hospital Ramón y Cajal. Pharmacy . Madrid. Spain <sup>2</sup>Hospital Ramón y Cajal. Infectious Diseases. Madrid. Spain

## PURPOSE

✓ To assess the patient satisfaction and knowledge of the switch from RPV/FTC/TDF to RPV/FTC/TAF.

## MATERIALS AND METHODS

### Where?

Pharmacy  
Department. Hospital  
Ramón y Cajal

### Who?

Patients who changed  
from RPV/FTC/TDF to  
RPV/FTC/TAF

### When?

August - September  
2018

### Materials

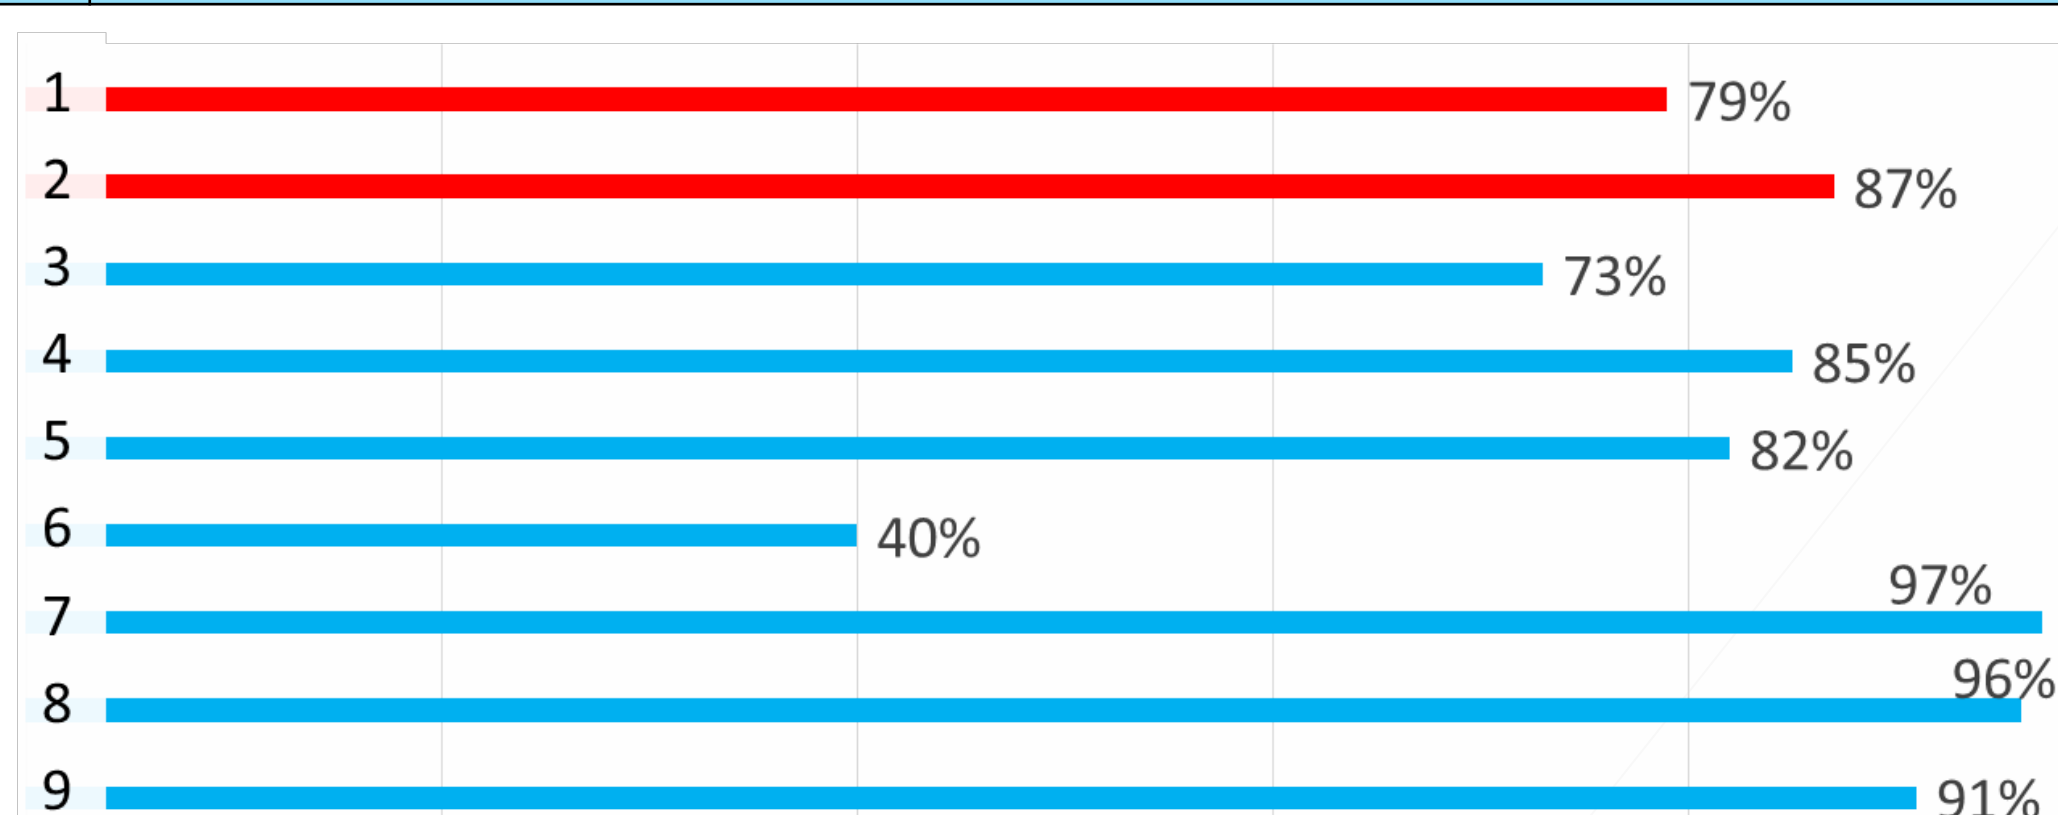

- Face to face meeting with the pharmacist or by phone patients were asked to complete a survey
- 9 questions (2 satisfaction + 7 knowledge)
- 5-point Likert scale of agreement/ disagreement

## RESULTS

### 48 patients

Characteristics	N (%)
<b>Age</b>	
< 40	16 (33)
≥ 40 and < 50	21 (44)
≥ 50	11 (23)
<b>Sex</b>	
Male	34 (71)
Female	14 (29)
<b>Region of origin</b>	
Spain	36 (75)
South America	6 (13)
Rest of Europe	5 (10)
Africa	1 (2)
<b>Highest level of education</b>	
University	20 (42)
Intermediate	20 (42)
Basic education	8 (17)
<b>Professional situation</b>	
Active worker	37 (77)
Unemployed	7 (15)
Retired	3 (6)
Student	1 (2)

Question	Survey items
1	I am happy that my Eviplera® was switched to Odefsey®
2	I am happy in the way the switch was explained to me
3	I do understand why my Eviplera® has been switched
4	My medication was switched because Odefsey® is better for my kidneys than Eviplera®
5	My medication was switched because Odefsey® is better for my bones than Eviplera®
6	I know that Odefsey® can increase my cholesterol levels
7	Eviplera and Odefsey are both equally effective in treating HIV
8	I know that Odefsey® must be taken with food
9	I know that I cannot use omeprazol with Odefsey®

High satisfaction

Good knowledge  
except for possible  
side effects

## CONCLUSIONS

➤ Patient education from an ambulatory clinic-based HIV specialist pharmacist resulted in high rates of patient satisfaction and understanding of the switch from TDF to TAF-containing ART
