Subject: memo on supply shortages of medicines

Dear David,

I've almost finished to write the memo on supply shortages of medicines - point of view of patients - covering 7 shortages and with a list of now 16 recommendations.

The following people contributed:

Christine Lavery	MPS Society UK, and acting President Fabry International Network
Pr Daniel Vittecoq	PUPH, Maladies Infectieuses et Tropicales, Hôpital Bicêtre, Paris and member of the Working Group on Medicines for Infectious Diseases, Agence Nationale de Sécurité du Médicament et des Produits de Santé, France
Dr Gabor Linthorst	Department of Endocrinology and Metabolism, Academic Medical Centre, Amsterdam
Prof Carla Hollak	Department of Internal Medicine, Inborn Errors of Metabolism in Adults at the University of Amsterdam

Some English editing/grammar check is needed.

This document could be Eurordis's contribution to a file we can prepare for the PCWP/HCPWP, i'd be happy to adapt it if needed.

Best regards,

François
