UNIVERSAL ACTIVITY NUMBER (UAN): 0475-0000-17-030-L01-P

Provider Name: European Association of Hospital Pharmacists (EAHP)

Cancel

Joint Providership(s): 0000 No Joint Providership (L)

Activity Type: Application

Activity Title: Antibiotic Stewardship for Beginners

Learning Objectives:

(Pharmacists)

At the completion of this activity, the participant will be able to:

- To define how ABS program are to be organized
- To give an overview on the scope and frequency of ABS programs worldwide
- To explain the current evidence of the clinical and economical impact of ABS teams
- To present the tools and objectives to promote ABS programs
- To explain that surveillance of antimicrobial consumption is an essential requirement for antibiotic stewardship programs
- To explain how data can be collected and reported
- To demonstrate the main pitfalls in data management
- To implement a system for collecting data on antimicrobial consumption
- To get the results they need for further interpretation
- To avoid common pitfalls when dealing with data on antimicrobial consumption
- To list different interventions to influence antibiotic consumption
- To explain how to build up networks on a regional level
- To explain how peri-OP-prophylaxis regimes can be influenced by the ABS team.
- To describe the main implementation strategies for antimicrobial stewardship program
- To choose the relevant approach for the selected stewardship goal with understanding the barriers and facilitators for implementation
- To share practical experience with AS interventions and feedback to the staff
- To identify high risk departments with the problems of antimicrobial prescribing
- To select relevant strategies for certain antimicrobial stewardship program goals
- To use different data collection methods to monitor and feedback the results of antimicrobial stewardship interventions
- To show how to implement an ABS
- To list possible strategies for getting staff for an ABS team on board without "creating" new positions
- To explain what measures and general conditions are important for an ABS team
- To show how to identify the need for implementing policy for optimal antibiotic use
- To explain potential reasons for wrong antimicrobial prescribing
- To present interventions to improve antibiotic use
- To present key points for implementing policies and interventions to improve antimicrobial use
- To list appropriate measures and metrics to study impact of the Antimicrobial Stewardship
- To describe the simple interventions that can improve antimicrobial use within a ward or hospital
- To understand the improvement methodologies that can support stewardship
- To describe the types of measures that can be used
- To outline methods of feeding back data to drive improvements in practice
- To describe the education resources available in various countries
- To understand the different types of education and how it may engage learners
- To understand the role of networks and champions in supporting education
- To outline the national campaigns for EAAD
- To describe how patients and the public can support stewardship
- To understand the importance of rational antimicrobial treatment and the implications associated with misuse of antimicrobials
- To explore the different ways in which antimicrobial treatment may be optimized by hospital pharmacists
- To ensure adequate pharmaceutical care is delivered to patients on antimicrobials by implementation of appropriate strategies
- To provide case studies describing potentially challenging case scenarios that a hospital pharmacist may encounter
- To encourage discussion among workshop participants on choosing appropriate antibiotics
- To help participants put into practice and apply background knowledge relating to antibiotics.
- To gain different perspectives on managing cases that they may encounter in practice
- To have a greater understanding and awareness of potential uses of antibiotics and different options for managing challenging cases

ACTIVITY DESCRIPTION FORM (ADF)

Accreditation Council for Pharmacy Education

135 S. LaSalle Street, Suite 4100 Chicago, IL 60603-4810

Phone (312) 664-3575 Fax (312) 664-7008 <http://www.acpe-accredit.org>

Activity Length: 12 **Contact Hours Or** 1.2 **CEUs.**

Target Audience: Pharmacists

Home Study Format(s):

Keyword(s): Antimicrobial Stewardship
Clinical Decision Support
Collaborative Drug Therapy Management (CDTM)
Drug Information
Drug Interactions
Education
Infectious Disease
Inter-professional Collaborative Practice
Inter-professional Education
Managed Care
Medication Safety
Medication Therapy Management
National Guidelines
New Drugs
Non-compliance
Pharmaceutical Care
Quality Assurance

Initial Release Date: 09/29/2017

Planned Expiration Date: 10/01/2017
