Meeting at congress/preliminary results

2) Survey on mobility

Due to technical problems the first survey had only 18 respondents + 83 in Hungary. Thus it was decided to re-launch the survey from 03/01/ to 31/01 2016. Head of pharmacies to be additionally approached.

The aim is to get evidence on the desire of free movement in hospital pharmacy. Interesting cases will be reviewed and persons interviewed using the templates already agreed. The aim will be to have some cases for political discussions.
