### **Application for EAHP Board Member re-election**

Dear Board members of the Nomination Committee, Members and Delegates,

I would like to apply for the position of EAHP Board Member in my second term. Having been a Board Member within the EAHP for the past four years, I have had the opportunity to work with the Board and with associations that collaborate with EAHP and I have been involved in numerous significant areas but I would like to highlight my involvement in ATMPs, Procurement, Environmental Sustainability and Pharmacy Education.

I am very much aligned with the goals and focus of the Association and I would like to use my skills gained as Vice-President of the Spanish Society of Hospital Pharmacy (SEFH) from 2015 to 2109 for the benefit of the EAHP. Previously I have been for five years delegate of my region, Asturias, in SEFH. I am currently working with the Spanish Ministry of Health in various projects, as the Experts Committee for the use of CAR-T cells and as member of the National Committee for the Specialization in Hospital Pharmacy. This experience places me in a positive position for all the relationships between EAHP and the Spanish Authorities.

I strongly believe in advancing the strategic vision of EAHP, taking responsibility for projects that are crucial to the development of hospital pharmacy in Europe, and actively engaging with member associations. In the year during which I was co-opted, and throughout my first term, I had the opportunity to contribute to various activities. This experience has allowed me to gain a deep understanding of the organisation, its mission, and goals. I believe I can continue making valuable contributions to policies and projects as a Board Member..

I've been working as Hospital Pharmacist since 1994, the year I began my training as resident of Hospital Pharmacy. I have worked in different hospitals since then, private and public hospitals, small and large hospitals and in different positions. This experience and my current position as Director of Pharmacy in a 1,000 bed Hospital provides me with a valuable insight into the profession as well as the challenges in Hospital Pharmacy.

You can count on the same enthusiasm, loyalty, and availability to work as I had this previous years.

My enclosed CV will provide you with more details regarding my qualifications and experience.

Yours Sincerely,

Ana Lozano Blázquez
