The National Institute of
Cardiovascular Diseases
Pod Krásnou hôrkou I
Bratislava
Slovakia

Dear Nomination Committee,

I am writing to express my interest in becoming a member of the board of the European Association of Hospital Pharmacists (EAHP), as advertised through the published selection process. Recognizing EAHP as a European leader dealing with innovations in hospital pharmacy, I am eager to contribute my skills, experiences, and passion to further enhance the organization's impact on the dynamic field of hospital pharmacy.

The landscape of hospital pharmacy, as well as the role of pharmacists within healthcare institutions, is undergoing significant and rapid changes in Slovakia as well as in other European countries. Beyond the traditional responsibilities related to drug and medical device management, there is a growing emphasis on clinical-pharmaceutical practices and the compounding of technologically advanced medicinal forms. It is within this evolving environment that I find great enthusiasm and commitment.

Having devoted my career to hospital pharmacy, I have been part of the National Institute of Cardiovascular Diseases since 2005, progressing through various departments to gain a comprehensive understanding of its operations. In my current position since 2019, I manage the hospital pharmacy and its 24-member team. This experience equipped me with the skills to implement innovative work procedures, support collaboration between hospital pharmacy professionals and different hospital departments, and adaptably manage stressful situations.

Since 2019, we have actively organized professional conferences, conducted our own research, and disseminated our findings at both national and international levels. Moreover, we have been instrumental in providing practical training and teaching opportunities for students of pharmaceutical and medical faculties, contributing to the education and development of future professionals in our field.

My commitment to continuous learning is evident through my pursuit of a PhD, specialized studies in clinical pharmacy, and engagement in foreign internships. This effort allowed me to keep up with new trends and apply them effectively to our daily practice.

In both professional and personal spheres, I am known for my reliability, loyalty, and active, positive attitude. I believe that my combination of experience and personal characteristics aligns seamlessly with the requirements of the position offered, making me an ideal candidate for a role on the board of EAHP.

I am excited about the prospect of contributing to the continued success of EAHP and collaborating with like-minded professionals who share a dedication to advancing hospital pharmacy practices across Europe.

Thank you for considering my application.

Sincerely,

Slávka Porubcová
