

CALL FOR ABSTRACTS

Original contributions from all fields of hospital pharmacy are welcomed for poster presentation. Poster award nominees will be determined in November 2024 and will have the opportunity to give an oral presentation during the congress. For further information about the submission of abstracts, please visit our website www.eahp.eu

Abstract submission opens: 1 August 2024

Deadline for submission: 9 October 2024

GOOD PRACTICE INITIATIVES

Share your good experiences with your peers.

For further information about the submission of GPIs, please visit our website www.eahp.eu

GPI submission is open.

Deadline for submission: 9 October 2024

REGISTRATION

The registration fees are set as follow:

Registration fee before 1 December 2024 € 520

Registration fee beginning 1 December 2024 € 610

Registration fee beginning 1 February 2025 € 695

Registration fee includes access to all sessions, the opening reception, the exhibition, lunches on Wednesday and Thursday and coffee/tea during official breaks.

The registration fee does not include the

Danish 25% VAT, which will be added at the end.

PERSON CENTRED PHARMACY - NAVIGATING DIGITAL HEALTH

The European Association of Hospital Pharmacists (EAHP) represents more than 27.000 hospital pharmacists in 36 European countries and is the only association of national organisations representing hospital pharmacists at European and international levels.

The European Association of Hospital Pharmacists (EAHP) is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

The EAHP 2025 Congress is accredited by the European Council for Pharmacy Education Accreditation (ECPHA)

LETTER FROM EAHP PRESIDENT-ELECT

Dear Colleagues,
I am thrilled to announce that the 29th edition of the EAHP Congress will take place in Copenhagen, Denmark, between 12-14 March 2025. Hospital pharmacists around Europe will again have the opportunity to share their expertise and latest developments in practice to advance patient outcomes through learning and nurturing partnerships and networks.

Our congress will bring us all closer to change, progress and evaluation of what we deliver today to patients seeking pharmaceutical care across European hospitals and healthcare systems in complex digital infrastructures. Moreover, the congress takes place in times of a generational reform of pharmaceutical legislation, marking the beginning of different approaches towards digital environment where patient-centred and seamless care interlinks, while securing safe healthcare delivery and optimizing health outcomes.

As healthcare professionals, we are not only obliged to change and evolve our practice, but to monitor the current and future hospital pharmacy policy and legislation landscape which gives us the opportunity to drive change thereby allowing us to continue our numerous activities dedicated and focused on patients. Having said that, we are fully aware of challenges that we as healthcare providers are facing in times of poly-crisis, shortages of medicines and medical devices and finally workforce shortages. Although in every one of EAHP's 36 member and 4 associate member countries, hospital pharmacists experience different obstacles while following the patients throughout the healthcare system, the EAHP congress shows, that hospital pharmacists stay united and will continue to improve pharmaceutical care towards the ultimate goal of providing the best possible treatment for patients, based on efficient and high-quality services and by leveraging previously gained decades of experience.

We look forward to welcoming you in Copenhagen, where friends of EAHP will keep spreading the word of hospital pharmacy among patients and healthcare professionals across Europe and beyond.

Dr. Nenad Miljković, EAHP President-elect

FOREWORD BY THE CHAIRMAN OF THE SCIENTIFIC COMMITTEE

Dear Friends of European Hospital Pharmacy,
"Person Centred Pharmacy – Navigating Digital Health" will be the theme for the presentations at the 2025 EAHP Congress, in Copenhagen. We help you to see opportunities and limitations of the high-tech evolution in healthcare. We show you how to deal with potential disinformation and patient expectations.

The 29th EAHP Congress will offer you inspiration to integrate new technology into your processes and services without losing the warm pharmacist's touch in high quality person centred pharmacy. It will not surprise you that these are the themes for our three keynote lectures. Over 20 seminars and workshops will be presented with topics related to edutainment, challenges in paediatric medicines and parenteral nutrition, hospital@home, cleanroom technologies, the use of artificial intelligence in drug dosing and clinical pharmacy services, patients discharge, automation in dispensing and administration, social media for researchers, drug repurposing and the evolution of clinical trials. The pharmacotherapy seminar will focus on anticoagulation therapy in hospitals. Along with keynotes and seminars, best practices will be disseminated by our abstract poster prize nominees and through the Good Practice Initiatives. In addition, workshops and interactive sessions within the theme of the congress will be given providing inspiration on aseptic handling, hospital pharmacy logistics and how to start your own research.

Based on the success, the Synergy Satellite programme is extended and will continue with many relevant topics. Also an interactive Young Professionals Session will be organised as a panel discussion in order to share experience and expertise.

Join the 29th EAHP Congress in Copenhagen, the Danish capital known for its historical buildings, the picturesque Nyhavn and the famous Tivoli park. As one of the university cities of Denmark it is the ideal place to share knowledge and to connect with EAHP members and participants from around the world.

Prof. Dr. Thomas De Rijdt, EAHP Scientific Committee Chairman

29TH EAHP CONGRESS 12-13-14 MARCH

SCIENTIFIC PROGRAMME

Theme | PERSON CENTRED PHARMACY - NAVIGATING DIGITAL HEALTH

KEYNOTE 1 – Opportunities and limitations of high-tech evolution
KEYNOTE 2 – How to deal with disinformation in healthcare
KEYNOTE 3 – Digital Health - patient experiences and expectations

Section 1 | Introductory Statements and Governance

IG1 – TBC
W1 – TBC

Section 2 | Selection, Procurement and Distribution

SPD1 – New threats around procurement
INT1 – The European landscape on hospital pharmacy logistics

Section 3 | Production and compounding

PC1 – Edutainment - using simulation for pharmaceutical technology training
PC2 – Challenges in Paediatric Medicines and Parenteral Nutrition
PC3 – Hospital @ Home
PC4 – Which clean room technologies? It depends!
W2 – Aseptic handling in Hospital Pharmacies - challenges ahead

Section 4 | Clinical Pharmacy Services

CPS1 – Dose it right, use a healthy dose of AI
INT2 – The patient in charge of the discharge

Section 5 | Patient Safety and Quality Assurance

PSQ1 – Artificial Intelligence in clinical pharmacy: threat or ally for patient safety?
PSQ2 – Using technology for dispensing and administration: is it always safer?

Section 6 | Education and Research

ER1 – Beyond "Likes": Influencers and Researchers using Social Media
ER2 – The second life of drugs: opportunities and challenges of drug repurposing
ER3 – Update on the clinical trial landscape
INT3 – Research is for everyone?

Pharmacotherapy Session

Anticoagulation Therapy in Hospitals: Let's Ask the Experts

Other sessions

Young Professionals session, Synergy Satellite events, hot topics...
