

Jaime Poquet-Jornet

Developing and presenting one business case

Jaime Poquet-Jornet is head of the Pharmacy Service at the Hospital of Denia, where he is in charge of developing planning and management tasks. As a service manager, he is also responsible for strategic planning and management of new projects. He is also Director of Training, Teaching and Research for the Department of Health of Denia.

He obtained his bachelor's in pharmacy from the University of Valencia, Doctor in Pharmacy, Specialist in Hospital Pharmacy, Postgraduate in "Bioethics and Quality of Life", "Master in Pharmacotherapy and Care Hospital Pharmaceutical" and "Master in Medical Management and Clinical Management".

In his hospital, he leads robotization protections, the improvement of the electronic medical record as well as the preparation of chemotherapy by gravimetry that results in greater safety of the pharmacotherapy process for patients.

He has published 70 articles in national and international Journals and has also participated in 100 Communications presented in National and International Congresses. He is a member of the Scientific Committee of Congresses related to his professional specialty. He has been, since 2008, Editor in Chief of the "European Journal of Clinical Pharmacy", and has also directed several Doctoral Theses.
